

The Governor's Office of Planning and Research (OPR) would like to thank everyone who participated in the Public Health Roundtable. We would specifically like to thank our speakers from the [California Health in All Policies Task Force](#), [County of San Diego](#), and [County of Riverside](#). Our speakers referenced several links and resources which we are including in this email.

We look forward to your participation at our next Roundtable on July 15, 2013 from 1:30 to 2:30. An agenda will be sent closer to the Roundtable date.

OPR Announcements

[*Climate Changers*](#): OPR recently launched "Climate Changers," an innovative video initiative to share hot lessons and cool solutions. We invite you to browse through our video library and to subscribe to our YouTube page.

[*Public Review and Comment – Plug-In Electric Vehicles: Universal Charging Access Guidelines and Best Practices*](#): OPR and the Division of the State Architect are pleased to solicit your input on the public review draft of "Plug-In Electric Vehicles: Universal Charging Access Guidelines and Best Practices." Comments can be emailed to ZEVfeedback@opr.ca.gov until Friday, June 7, 2013.

[*UCLA center creates first interactive electricity-use map of Los Angeles*](#): A new energy map of Los Angeles lets residents find the average electricity use for their neighborhood, see how a neighborhood's energy use relates to its average income level, and track energy use over time.

California Health in All Policies Task Force Resources

[*Health in All Policies Task Force report to the Strategic Growth Council*](#): This report outlines 34 recommendations for improving the efficiency, cost-effectiveness, and collaborative nature of State government, while promoting both health and other goals of the SGC. You can also view an [Executive Summary](#) of the report.

[*Health in All Policies Task Force Implementation Plans*](#): Eight implementation plans have been developed by the California Health in All Policies Task Force, and new plans will continue to be posted here as they are developed and endorsed by the Strategic Growth Council. An update on progress of these implementation plans from May 2013 is available [here](#).

[*Crime Prevention Through Environmental Design*](#): CPTED is defined as "the proper design and effective use of the built environment that can lead to a reduction in the fear and incidence of crime and an improvement in the quality of life." HiAP wants to know what cities and counties in California have tried to do in this field. 1) Does your community have policies or programs based on the CPTED approach or a recent project that tries to reduce crime and violence through its design? 2) Do you know any good examples, tools, or other communities that do? Share your experiences via webform [here](#).

[*Climate Action for Health - Integrating Public Health into Climate Action Planning*](#): Developed to aid a variety of agencies including planning, public works, city manager or mayor's offices, sustainability offices, public health and community groups in developing a Climate Action Plan by identifying key GHG emissions reduction efforts in that have health co-benefits.

[Creating Healthy Regional Transportation Plans: A Primer for California's Public Health Community on Regional transportation Plans and Sustainable Communities Strategies](#): This primer provides user-friendly information for local health departments and other public health professionals on opportunities for health promotion through Regional Transportation Plans.

[Healthy Communities Data and Indicators Project](#): The goal of HCI is to enhance public health by providing data, a standardized set of statistical measures, and tools that a broad array of sectors can use for planning healthy communities and evaluating the impact of plans, projects, policy, and environmental changes on community health.

More Info: To contact the Health in All Policies Task Force staff please email HiAP@cdph.ca.gov.

Public Health: Local Government Highlights

[Healthy Works](#): Healthy Works is a component of the County of San Diego's *Live Well, San Diego!* initiative, a 10-year strategic vision for creating healthy, safe, and thriving communities.

[Live Well San Diego](#): The Board of Supervisors voted to adopt a comprehensive, innovative strategy on wellness, called Live Well, San Diego! This long-term strategy to help all County residents become healthy, safe and thriving is being implemented with community involvement.

[Healthy Riverside County Initiative](#): The County of Riverside's 2013 Community Health Profile illustrates the scope of the chronic disease problem and suggests opportunities to change behaviors and improve health.

[Riverside County Health Coalition](#): The Riverside County Health Coalition (RCHC) was formed in 2009 with the mission to promote, improve and sustain social and physical environments for healthy eating behaviors and active lifestyles for wellness through policy development and advocacy, environment change and community empowerment in Riverside County.

[Riverside County Healthy Communities Element](#): The General Plan Vision speaks of the importance of promoting a healthy living environment for all residents. The Healthy Communities Element provides a framework for translating the General Plan vision for a healthy Riverside County into reality by identifying policies to achieve that vision.

Announcements from Roundtable Participants

[Best Practices for Mosquito Control in California](#): This manual provides landowners with Best Management Practices (BMPs) for mosquito control. The term BMP is used to describe actions landowners can take to reduce mosquito production from permanent water sources, reduce or eliminate mosquito production from temporary water sources, and reduce the potential for disease transmission to humans on their property.
